Raising the flag on diabetes...

The Diabetic Society of Singapore's Flag Day on 14 January 2017 raised more than just funds for our outreach programs and clinical services at subsidised rates for people with diabetes. It was targeted at raising awareness on the rising prevalence of diabetes in Singapore.

We were very fortunate to have the students and teachers from Fuhua Secondary School with us despite it being almost at the start of the school year. The group of about 100 enthusiastic and spirited students reported early in the morning at the collection centre at JCube Mall in Jurong East.

At the other collection centres, we had a group of students from Nanyang Polytechnic and another group of Girl Guides from Bishan Park Secondary School. Members from the DSS Support Group (DSG) also chipped in hours of their precious Saturday morning.

Thank you to all our volunteers, students and teachers for setting aside time working so hard to raise funds and diabetes awareness on behalf of DSS. We would also like to thank the management of JCube for their support in granting us the use of their mall as our collection centre. And to all who have kindly donated to our cause, individual and corporate donors, DSS humbly thanks you for your generosity.

Coming up soon will be our 46th DSS AGM. Do save the date and join us then to participate and have your say! Till then, enjoy reading this issue!

Mr Yong Chiang Boon
President
Diabetic Society of Singapore

Diabetic Society of Singapore (DSS) was founded by Dr Frederick Tan Bock Yam on 25 September 1971 to help diabetes patients manage their condition.

DSS is a non-profit organisation affiliated to the International Diabetes Federation and the National Council of Social Service. DSS gratefully accepts donations of any amount to help fight diabetes. **All donations are tax-deductible.** Please make **cash donations** in person at any of our centres. **Cheque donations** should be made payable to 'Diabetic Society of Singapore'.

You may also make **online donations** via www.sggives.org/diabetes.
